

MICROSCOPES *and Materials*

A unique study day for year 9 students

Friday 19th June, 9.30 - 14.30

The History of Science Museum in partnership with the University of Oxford's Department of Materials and the Oxford Botanic Garden are offering an exciting programme of hands-on workshops using microscopes to explore materials.

Your students will get:

- **Hands on with historical microscopes** and use them to explore historic collections at HSM
- Learn to **use cutting edge microscopes** to investigate metals and alloys at the Department of Materials
- **Learn about biomimicry and nature based solutions**, looking at natural surfaces under microscopes at the Botanic Garden.

Booking information

Spaces are limited to 12 places per school.
£5 per student.

To book your spot, or find out more:

Email: learning@hsm.ox.ac.uk

Please note, we regret that there is currently no wheelchair access to the Museum.
